Mobile: +91-6394781101

SKILLS

Languages: C, C++, Python, Java
Frameworks: HTML, Tailwind CSS , NodeJS, React.js, Express.js
Tools/Platforms: Free Code Camp, MySQL, MongoDB, Git, GitHub, Vercel, Render, Figma, Canva
Soft Skills: Problem-Solving, Leadership, Adaptability, Teamwork

PROJECTS

Nivana-Self Identifying mental Health Platform Dec'25

- Engineered a scalable full-stack MERN application with **10+** modules including authentication, mood tracking, and dashboards.
- Designed **25+** REST APIs with JWT-based authentication for secure and role-based access control.
- Integrated an AI-powered self-assessment system (**20+** questions) using the Gemini API for personalized insights.
- Built wellness features like meditation, journaling, and mood analytics, improving user engagement.
- Strengthened system reliability through structured error handling and fallback mechanisms.

Tech Stack: React.js, Tailwind CSS, Express.js, Node.js, MongoDB | Live | GitHub

Shortest Path Visualizer Aug'25

- Developed an interactive pathfinding visualizer using Dijkstra's Algorithm for shortest path computation.
- Built a dynamic UI with graph manipulation (nodes, edges, drag-and-drop) using JavaScript.
- Optimized performance by **40%** using a custom priority queue and efficient graph traversal.
- Enabled real-time algorithm visualization, improving understanding of graph concepts.

Tech Stack: HTML, Tailwind CSS, JavaScript | Live | GitHub

CouponSys-Coupon Management Platform Apr'25

- Built a backend-driven coupon management system to generate, track, and manage coupons with expiry and redemption workflows.
- Designed backend logic using PHP and MySQL for validation, lifecycle management, and transaction processing.
- Implemented **15+** features including coupon generation, filtering, and admin dashboard controls.
- Processed **200+** transactions, ensuring data accuracy and system reliability.

Tech Stack: HTML, Tailwind CSS, JavaScript, PHP | GitHub

TRAINING

Algo Tutor| Certificate Jun'25-Jul'25

Competitive Programming | Java

- Completed a **28-day** training focused on Data Structures and Algorithms and competitive programming.
- Solved **100+** advanced problems covering topics like graphs, dynamic programming, recursion, and greedy algorithms.
- Strengthened problem-solving, algorithmic thinking, and time complexity optimization skills.
- Applied concepts using Java, improving coding efficiency and logical reasoning.

CERTIFICATES

Graph Theory Programming Camp | Algo University |Link Mar'26
Problem Solving (Intermediate)| Hacker rank| Link Dec'25
Cloud Computing| NPTEL| Link Oct'25
Competitive Programming| Algo Tutor| Link Aug'25
Introduction to MongoDB| MongoDB| Link Jun'25
Java Programming| NeoColab | Link May'25

ACHIEVEMENTS

Solve **400+** DSA problems Mar'26
Strengthened algorithmic skills and problem-solving across LeetCode, HackerRank, and GeeksforGeeks .

Completed Graph Camp by Algo University Nov'25
Achieved Hall of Fame and Solved **15+** problems of Competitive Programming on Graph.

Secured a **5-Star** Rating in Java on Hacker Rank Oct'25
Demonstrated strong coding skills and consistent problem-solving accuracy on a global platform.

Earned **10+** skill badges on MongoDB Atlas & MongoDB University Jun'25
Demonstrated proficiency in database design and CRUD operations.

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA**: 8.85** Aug'23-Present
St. Xavier's Senior Secondary School Balrampur, Uttar Pradesh
Intermediate; Percentage: **90.8%** Apr'20 – Mar'22
St. Xavier's Senior Secondary School Balrampur, Uttar Pradesh
Matriculation; Percentage: **94.8%** Apr'19 – Mar'20
